By Rail

Train master	Rail Sliding Rake Indent Details
Rail Sliding Train Reconciliation	Empty In Work Order
Gate In Empty Container BCN	BCN Wagon Tally Sheet
Indirect Stuffing	Container Details
Export Document Entry	Shipping Bill Container Mapping
Invoice Generation & payment collection	Export loaded container gate out
Export loaded container gate out confirmation	Export gate out- CBT
Export gate out confirmation – CBT	

Rail Terminal Operations

Below enlisted are the features that the system supports for the Rail Terminal.

Rake Scheduling	Train Summary
Work Order for Unloading Containers	Work Order for De-stuffing Bulk Cargo

In BOUND PROCESS

In Bound Process covers the functionalities such as Recording of Train visit, Schedule updating, Unloading of Rake into Rail siding and Movement work order to move the containers in ICD, Job order for container delivery to other ICD and It's Invoicing

Rake Scheduling	Train Summary Download
Job order for container delivery to other ICD	Rail Handling and Storage Billing to Other ICD
Payment Collection	Other CFS container gate out
Other CFS container gate out confirmation	

TERMINAL OPERATIONS – IMPORT

Movement Job Order Generation	Gate In Import Container
Yard Confirmation	Seal Cutting Job Order
Work Order for Customs Examination	De-stuff Delivery – Work Order For De-stuffing
Container De-stuffing Entry	Import Assessment
Import Payment Collection	Import Cargo Gate Out Work Order
Import Cargo Gate Out Confirmation	Import CONTAINER Gate Out Work Order
Import Container Gate Out Confirmation	

Out Bound Process

Out Bond Schedule	Booking
Export /Domestic Loaded Container Gate Out	Export/Domestic Loaded Container Gate Out Confirmation
Work Order for Loading Containers	Work Order for Stuffing Bulk Cargo
Invoicing& Payment Receipt	Train Load Plan
Container Load Plan	Train Load Tally Sheet Updation
ATD date updation	Import CONTAINER Gate Out Work Order

Auction Process

Auction Documentation	Auction Notices and Hold	Docks Examination
Group NOC	Disposal Appraisal	Tender Bidding
Estimation	Auction Invoice	

Coil Processing

Coil movement Gate In	Coil Movement -Gate Out	RFID / Barcode Recording
Inventory maintenance	Coil segregation based on Specification	Yard Planning and Management
Rake Planning	Vehicle tracking
